

CELEBRATING OUR TEAM

At The Center, we believe the heart of our mission lives in the everyday actions of our team. The REACT Award – Recognizing Effort by Acknowledging Contributions to our Team – celebrates employees who go above and beyond to support clients, coworkers, and our community.

Nominations come directly from the people who experience that impact firsthand—both fellow team members

and the clients we serve.

In this issue, we are proud to recognize Holly Bowyer, Neveah Ramirez, and Alysia Ricker for the meaningful ways they show up for others—whether that’s supporting colleagues, helping clients navigate challenges with kindness, or creating a positive environment for those around them. Their dedication reflects the compassion and teamwork that make our

mission possible every day.

Know a Center team member who made a difference for you?

We invite our clients and community members to share their appreciation by submitting a REACT Award nomination. Your story helps us celebrate the people who are helping cultivate help, hope, and healing across our communities.
